

How to complete your online Wellness Assessment with Cigna

An online Wellness Assessment is a questionnaire about your biometric numbers, current health condition, diet, lifestyle, health goals, sleep patterns and more. The information you provide generates a wellness score of your overall health and tips on how to achieve your health goals.

Before you start

- If you've previously completed a Wellness Screening, you may notice as you take the Wellness Assessment that your biometric values are pre-populated. You can leave these as is, manually enter your new values (if you have them) or leave these values blank¹.
- You may want to have a tape measure handy to measure your waist circumference and input that number when asked. You can also leave this number blank.
- A covered spouse/domestic partner will need the JPMC employee's Social Security Number (SSN) to register with Cigna (if they haven't already).

Ready to take the Wellness Assessment?

- From work: Go to **My Health** > <u>Complete your Wellness Assessment</u> (employees only)
- From home: Go directly to <u>mycigna.com</u> > Wellness > My Wellness Assessment (employees and covered spouses/domestic partners)

¹ If you choose to complete a biometric Wellness Screening at a JPMC onsite event or Health & Wellness Center, your results will be automatically uploaded to the Quest Wellness Screening Portal between 3-15 days (depending on where you received your screening). They will also be uploaded to mycigna.com (even if Cigna is not your health care company) between 2-3 weeks, depending on where you received your screening. Note for those eligible for Core only (enrolled and not enrolled): Only biometric numbers from your Wellness Screening that meet healthy targets for BMI and/or blood pressure will trigger Wellness Rewards and not those entered manually to the Wellness Assessment. See **My Health** for details.
